

## Quality, Health, Safety and Environment Policy

Torraval Cooling S.L. seeks to achieve the highest standards of Quality, Health, Safety and Environment, incorporating the principles of sustainable development in their businesses around the world.

Torraval Cooling S.L. recognizes the health and safety of its staff, contractors and visitors; clients satisfaction, environmental protection and development of communities it deals with, as absolute and integrated priorities; The entire company is oriented to achieve these objectives in an open and transparent way.

The management of Quality, Health, Safety and Environment and the principles of risk management are integrated into business procedures.

The Direction is responsible for excellence in performance in terms of Quality, Health, Safety and Environment to achieve successful business results.

Torraval Cooling SL is committed to training its staff on the proper use of its Quality, Health, Safety and Environmental management systems, strengthening its management by updating professional skills and management, encouraging diversity, emphasizing the evaluation and motivation of employees and complying with the ethical principles established in their Code of Conduct.

- Nothing is more important than health and safety of everyone who works for us and uses our cooling towers
- All work-related injuries and illnesses can and should be prevented
- Working safely is an indispensable condition
- Quality is one of our main competitive advantages
- The requirements and expectations of interested parties must be satisfied
- Differentiation is achieved through excellence in our operations and development of innovative and reliable products and services, promoting the approach in processes and risk-based thinking.

We are committed to the development of a sustainable business in the long term preventing pollution and minimizing the environmental impact of our operations and making the most efficient use of natural resources and energy.

Torraval Cooling S.L. recognizes the importance of properly implementing this policy through its Quality and Environment management systems according to ISO 9001: 2008 and ISO 14001: 2004 standards.

Torraval Cooling S.L. is committed to comply with the applicable legal requirements and with any other requirement that it subscribes related to issues of Quality, Health, Safety and Environment and other specific commitments pertinent to our context.

Torraval Cooling S.L. is committed to keeping this Policy available to interested parties, to implement and keep its management system, and to improve on continuous basis the performance in terms of Quality, Health, Safety and Environment.
